# Release Notes

The following table provides information about what is new and what has changed since the last release:

Date (Version)	Description
2020-02-04 (1.27.1)	 <p><b>Web UI</b></p> <p><b>New</b></p> <ul style="list-style-type: none"> <li>○ New automated sending function for tour assignment.</li> <li>○ New improved Tour map view 2.0</li> <li>○ Implemented feature that allows searching for all Time Slot Allocations that exist for the selected day in the dock calendar, list of ULI without Dock Allocation and list of ULI without Time Slot Allocation</li> </ul>

- Fix**
- Fixed issue of error messages from backend always being displayed in English even though the language is set to a different language.
  - Fixed issue in „Web - Dock & Yard - Time Slot Allocation“ where the displayed addresses „Pick Up party address“ and „Delivery party address“ are switched.

- Fixed issue where the user must log off and log on again in order to see new added user role to an already logged in user or to remove an existing user role. Now this has a direct and immediate effect for the logged-in users.
- Fixed issue with Load quality deviation images not being displayed.

## Dock App

### Fix

- Implemented a unique loaner phone ID constraint for all Hubs.

The screenshot shows the 'Compartment List' and 'Loaner Phones' sections of the Dock App. The 'Compartment List' table has columns for Name, SSCC2, and Plant ID. The 'Loaner Phones' table has columns for ID, Phone Number, and Manufa. A modal window titled 'Add mobile phone' is open, showing a form with an 'ID' field and a 'Phone Number' field. The 'Phone Number' field is expanded to show a list of countries and their phone number prefixes.

Name	SSCC2	Plant ID
Hub Tamm	0001	4000177023

ID	Phone Number	Manufa
Tamm-001	+491723871204	Samsun
Tamm-002	+491739477367	Samsun
T02	+4950505005	Samsun

**Add mobile phone**

ID \*

Phone Number

- Germany (Deutschland) +49
- Hungary (Magyarország) +36
- Poland (Polska) +48
- Romania (România) +40
- Slovakia (Slovensko) +421
- Czech Republic (Česká republika) +420
- Serbia (Србија) +381
- Ukraine (Україна) +380
- Austria (Österreich) +43

- Fixed issue with hub management not allowing the removal of a created hub.
- Fixed issue that all HU were put to “Lost” and thus, opening the XMS Loading List PDF files resulted in an error. The loading list now includes the comment, that no goods are found for this load.
